

Rehab@Home

Getting back to life, sooner

Rehab@Home

Remedy Healthcare's **Rehabilitation@Home** gives you access to a range of rehabilitation and healthcare services from the privacy, safety and comfort of your home.

Depending on your needs, Remedy Healthcare can provide effective and convenient rehabilitation services following a wide range of surgical procedures and for medical conditions including:

- ✓ joint replacements
- ✓ fractures
- ✓ neurological conditions
- ✓ respiratory conditions
- ✓ cardiac conditions
- ✓ reconditioning
- ✓ mobility problems and falls
- ✓ spinal conditions

Your **Rehabilitation@Home** service will take place under the care of your dedicated Remedy Care Coordinator. He or she will guide and support you through your rehabilitation program.

Depending on your needs, the following services can be provided:

- ✓ Physiotherapy, to improve your strength, balance, mobility and safety in and around your home.
- ✓ Nursing, to help you with dressings, wound care, and medication management.
- ✓ Occupational therapy, to help you achieve independence and safety in activities of daily living, including dressing and showering.
- ✓ Personal care, to help with showering and dressing.
- ✓ Home care, for domestic support such as cleaning.
- ✓ Meals, delivered to your home to help in the early days after leaving hospital.

Your dedicated Remedy Care Coordinator will coordinate these services to help you successfully recover at home.
